# Use of Funds

Your donations will help support:

Food for participants throughout the hackathon

Ensuring Safety throughout the event

Swag giveaways (reusable water bottles & stickers) for hackathon participants

Prizes for the participants during the event

Providing hardware, software and other educational resources

Improving the quality of our event's venue

# FAQ

## ***What is a hackathon?***

A hackathon is a 24-hour event which allows participants to collaborate, design, and build incredible projects. Hackathons allow participants to explore new programming languages and technical topics in a creative and fun manner.

## ***Who is eligible to participate?***

Any college student that is 18 years or older is allowed to participate. No particular skill set is required. We will not give preference to Wentworth students. HackWITus does not discriminate against anyone.

## ***What are the ways that sponsors can contribute?***

HackWITus will gladly accept monetary contributions to help with the overhead costs of this event. However, contributions do not need to be exclusively monetary. We are looking for experts in technical fields to host workshops and judges for our prize categories. Hackers love food, you can choose to sponsor a meal for the hackathon.
